---

Jonathan:

As I indicated in my voicemail to you this afternoon, the EPA needs to know the specific location of the property that is of concern. I have conferred with Rafael Casanova, RPM and Gary Moore, OSC for the Falcon Refinery Superfund site. To facilitate a decision by the EPA, the Agency will need a map of the location that you discussed with me. Please log onto Google Earth and highlight the area and copy it as a picture and send it to us. Or, you may send the approximate coordinates for the corner points of the property to me and EPA will map out the boundary lines.

Please send the information as soon as possible and EPA will act quickly to assess the area in the context of the boundaries of the Falcon Refinery Superfund site. Please call me if you have any questions.

Thank you,

Gloria Moran  
Assistant Regional Counsel  
Superfund Branch (6RC-S)  
U.S.EPA, Region 6
